

Blackwell  
The Arts  
& Crafts  
House

  
LIVING ART

Continue your day in a relaxed fashion with a visit to **Blackwell, an Arts & Crafts house** and to **Peter Hall & Son, a furniture workshop** making contemporary Arts & Crafts furniture.

**Blackwell is one of Britain's finest houses from the turn of the last century retaining almost all of its original decorative features in the Arts & Crafts style.**

One of the real joys of Blackwell lies in its wealth of detail, from the leaf-shaped door handles and curious window catches to spectacular plasterwork, stained glass and carved wooden panelling. The period rooms have been carefully furnished with the blend of Arts & Crafts furniture and early country-made pieces advocated by its architect. There will be time for lunch in Blackwell's Tea Room before going to Peter Hall & Son Ltd founded in 1972, is a workshop specialising in making beautiful furniture with aspects of design harking back to the Arts & Crafts period but with a contemporary feel.

**As part of your visit we will give you a personal tour through the workshops, meet crafts people working before finishing in the showroom where you can see the finished furniture and woodturning on display.**
